The Public Interest Score is calculated as follows in terms of Regulation 26 of the Companies Act.

- 1 point for each employee or the average number of employees throughout the year
- 1 point per million rand of third party liability. This is the money owed in terms of loans, debentures, and other financing.
- 1 point for each million rand of **turnover** during the financial year. If the turnover is a half a million rand, score ½ point.
- 1 point for every individual who, at the end of the year, is known to have a direct or indirect beneficial interest in the company. This will include shareholder, beneficiaries of a trust where a trust is a shareholder and other stakeholder.
